

## How to enter the switch management interface

To log into the switch using browser-based access:

(1) First of all, plug the computer with a network cable into any one of the switch's network ports (not into the yellow console management port), and then set the computer's ip address and the switch's default ip address into a network segment, for example, 192.168.10.101, and refer to the picture for the subnet mask and the default gateway, and then click on Confirm. Refer to the following picture to set:

The ip of the computer is static ip, the ip address is 192.168.10.101, and the subnet mask is 255.255.255.0. (Of course, the computer network card ip as long as 192.168.10. X, the range of X from 1-254, I only take 192.168.10.101 as an example).

nternet 1991文版本 4 (ICP/IPV4) F	roperties		
General			
You can get IP settings assigned this capability. Otherwise, you ne for the appropriate IP settings.	automatically if your network supports eed to ask your network administrator		
O Obtain an IP address autom	natically		
• Use the following IP address	s:		
IP address:	192 . 168 . 10 . 101		
Subnet mask:	255.255.255.0		
Default gateway:			
Obtain DNS server address	automatically		
• Use the following DNS serve	er addresses:		
Preferred DNS server:			
Alternate DNS server:	• •		
Validate settings upon exit	Advanced		

(2) Open your computer browser, Firefox or Google Chrome is recommended, enter the IP address of the switch in the browser, the default IP address of the switch is 192.168.10.12. The login screen will be displayed, enter the default user name and password.

	192.168		2 3 4	5 6 7 8	9(10G)
